The "Student Plans" table presents the distribution of all students who responded to the post-secondary options on the Senior Exit Plans Survey (SEPS). For example, the number of students who plan only to attend school (e.g., they do not plan to work or join the military and do not have other plans) is given as "School." Those who intend to attend school and work are counted as "School and Work."

No response 0 0%

Note. 1) "No response" indicates students who did not respond to any of the post high school plan choices. The number of surveys returned is the denominator used to calculate the "No response" percent. 2) The percents in this table are based upon the the number of surveys returned minus the "No response" figure.

Table 2b. School-bound Students by Type of School, Full/Part Time Status, and Location

Type of school	In Hawai'i		Not in Hawai'i	
	Number	Percent	Number	Percent

Business or trade school	4	2%	6	3%

Note. The percents in this table are based upon number of school bound students who responded to both the type of school and gender items (n = 211).

Table 2f. Schools, Colleges, and Universities

Students completing the Senior Exit Plans Survey were asked to write the name of the school they planned to attend during the year following their graduation from high school. The following table lists the names of the schools (alphabetical order) by state (with Hawai'i listed first). Students were also asked to bubble in the college or university College Board code of the school they planned to attend. Codes for over 100 schools were provided on the back of the survey form. If a student's intended school was not among those listed on the back of the survey form, students were instructed to write in the name of the school in the space provided. Percents are based upon the total number of students responding to this item.
